< 6" Wide = Straight Stake

> 6" Wide = H-Stake

STRAIGHT STAKE ASSEMBLY

1.

2.

3.

Note: Straight stakes have a notch on one end that should be inserted into the characters to prevent them from spinning in the wind.

1. **For shorter characters:** The notch should face up and insert into the bottom of the character.

2. **For longer characters:** The notch should face down and insert into the bottom of the character.

3. Once the stake is inserted into the character, use a rubber mallet or a hammer to secure the stake into the ground.

H-STAKE ASSEMBLY

1.

2.

3.

1. Insert the H-stake into the flutes on the bottom of the character.

2. Select the placement of the character.

3. Use your hands to push the H-stake into the ground until it is stable.

**Occasionally, we may need to substitute stake types due to demand.
If you receive all straight stakes, then the letters that require an H-stake will receive 2 straight stakes instead.**
